Professional Summary

Front-End Developer with 3 years of experience building scalable, performant, and responsive web applications using React.js (Hooks), TypeScript, and Redux Toolkit. Skilled in RESTful and GraphQL API integration, responsive UI design (Material-UI, Ant Design, Tailwind CSS), and test-driven development with Jest and React Testing Library. Proficient in optimizing page load times and developing modular UI component libraries in Agile/Scrum environments. Familiar with AI-based developer assistants (ChatGPT, GitHub Copilot, Grok, Perplexity) to enhance code productivity and review efficiency.

Work Experience

React.js Developer | Cybage Software | August 2022 – August 2025

- Developed and enhanced React dashboards using TypeScript, Redux Toolkit, Material-UI, Ant Design, and Tailwind CSS for a large-scale hospitality management platform serving 50+ travel and hotel partners.
- Architected a scalable component library (60+ reusable modules) reducing feature development time by 30%.
- Integrated RESTful and GraphQL services to deliver real-time data visualization and interactive dashboards.
- Led the UI unification of three products into one Customer Portal Dashboard → boosted user engagement by 25% and conversion by 15%.
- Refactored legacy code to React-based Self-Service Dashboard → cut page load times by 25%.
- Built unit and integration tests (Jest, RTL) achieving 60%+ coverage and reducing post-release defects by half.
- Collaborated with cross-functional teams and used AI tools (ChatGPT, Copilot) to expedite debugging and code reviews.

Major Achievements

- Improved overall page load performance by 15% through lazy loading and render optimization.
- Accelerated delivery by 20% via optimized Agile sprint workflows and cross-team communication.
- Increased maintainability by 30% through code review standards and consistent component patterns.

Skills

- **Languages / Frameworks:** JavaScript (ES6+), TypeScript, React.js (Hooks), Redux Toolkit, Context API, SQL, Data Structures
- **UI & Styling:** HTML5, CSS3, Responsive Design, Material-UI, Ant Design, Bootstrap, Tailwind CSS, Cross-Browser Compatibility
- **APIs & Data:** RESTful APIs, GraphQL, Axios, JSON
- **Testing & QA:** Jest, React Testing Library, Unit Testing, Code Coverage
- **Tools & DevOps:** Git (GitHub/Bitbucket), Node.js, npm/Yarn, Webpack, Babel, VS Code, Jira
- **AI & Productivity Tools:** ChatGPT, GitHub Copilot, Grok, Perplexity (for code generation, documentation & troubleshooting)
- **Practices:** Agile/Scrum, Component Architecture, Performance Optimization, Problem Solving, Team Collaboration

Education

- Bachelor of Engineering (B.E.) – Information Technology | *July 2022*
- S. B. Jain Institute of Technology, Management and Research – Nagpur
